SUMMARY

Data Analyst with hands-on experience building end-to-end analytics solutions using Python, SQL, Power BI, and Excel. Skilled in data cleaning, EDA, ETL pipelines, and KPI dashboard development to transform raw datasets into actionable business insights. Completed M.Sc. IT with specialization in Data Analytics & Business Intelligence; awaiting final results. Additionally pursuing a Postgraduate Program in Data Science & Analytics with Gen AI at Imarticus Learning, gaining hands-on exposure to Machine Learning, Deep Learning, and Generative AI tools.

EXPERIENCE

Data Analyst (Reporting & Analytics) & Computer Instructor

Aug 2024 – Present

Mamari Vidyalaya High School, Mumbai

- Developed and automated Excel-based reporting systems for 300+ student records, improving data accuracy and reducing manual effort
- Designed and built a School ERP Fee Analytics System using Python, SQL, and Power BI to track fee collection, defaulters, and key performance indicators
- Applied data analysis and visualization techniques to generate actionable insights supporting administrative decision-making

EDUCATION

Imarticus Learning, Mumbai

Pursuing

Postgraduate Program – Data Science & Analytics with Gen AI

Guru Nanak Khalsa College, Mumbai

Completed: March 2026 | Final Results Awaited

Master of Science – Information Technology

Guru Nanak Khalsa College, Mumbai

Graduated

Bachelor of Science – Information Technology | CGPA: 8.26 / 10

PROJECTS

Swiggy Sales Analytics Dashboard Python | Excel (xlsxwriter)

[GitHub](#)

- Analysed 197,400+ Swiggy food delivery orders across 28 cities and 993 restaurants to uncover revenue trends, demand patterns, and city-level performance using Python and Pandas.
- Cleaned and preprocessed raw data — standardised dates, removed duplicates, imputed missing values, and engineered 5 new columns (Month, Quarter, DayOfWeek, Price Bucket, Rating Band) for deeper segmentation.
- Built a fully automated multi-sheet Excel dashboard with 5 KPI cards (₹53M Sales, ₹268 AOV, 197K Orders) and a Pivot Summary sheet with 6 pre-built aggregation tables for stakeholder-ready reporting.

School ERP – Fee Performance Analytics Dashboard Python | SQL Server | Power BI

[GitHub](#)

- Built an end-to-end fee analytics system analysing fee collection, outstanding dues, and defaulter trends across 500+ student records.
- Cleaned and validated financial data using Python (Pandas); optimized SQL queries to calculate monthly KPIs including Collection %, Outstanding Balance, and Defaulter Count.
- Developed a Power BI dashboard with DAX measures and interactive drill-downs, enabling real-time monitoring of fee performance and collection efficiency for school administrators.

Customer Behavior Analysis Dashboard Python | PostgreSQL | Power BI

[GitHub](#)

- Cleaned and transformed a 3,900-record customer dataset — handled missing values, feature engineering, and column standardisation using Python.
- Loaded data into PostgreSQL and wrote 10+ SQL queries to analyse revenue by age group, subscription behavior, shipping type, and discount impact using CTEs and window functions.
- Built an interactive Power BI dashboard with KPIs (Total Customers, Avg Purchase Amount, Avg Rating, Category-wise Revenue) and delivered actionable insights on high-value customer segments.

Other Projects:

- Zepto E-Commerce SQL Analysis (PostgreSQL) [GitHub](#)
- Pizza Sales Analytics Dashboard (SQL ,Power BI) [GitHub](#)

SKILLS

Languages & Tools: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL

Data & BI: Data Analysis, Data Visualization, Business Intelligence, Dashboard Development, KPI Reporting

Databases: PostgreSQL, MySQL, SQL Server, SQLite

SQL: Joins, CTEs, Window Functions, Query Optimization, Data Modeling

Visualization: Power BI (DAX), Tableau, Excel (Pivot Tables, XLOOKUP, Charts)

Machine Learning: Regression, Classification, Clustering

Generative AI: ChatGPT, Copilot, Prompt Engineering, RAG (Basic)

Tools: Git, GitHub, Jupyter Notebook, VS Code, Power Query, Google Sheets

CERTIFICATIONS & TRAINING

Postgraduate Program in Data Science & Analytics with Gen AI – Imarticus Learning (*Pursuing*)

Data Analyst Certification – Udemy

Python Programming Certification – RST Forum

Machine Learning Coursework – Guru Nanak Khalsa College
